David Talmy
Associate Professor
Department of Microbiology, University of Tennessee
Tel: +1-865-974-3719
Email: dtalmy@utk.edu

Education

2009-2013 **PhD Environmental Science**
School of Biological Sciences, University of Essex

2008-2009 **MRes Mathematics in the Living Environment (with Distinction)**
Departments of Biology and Mathematics, University of York

2004-2008 **MMath Mathematics**
School of Mathematical and Physical Sciences, University of Sussex

Professional Experience

2025-present **Associate Professor**
Department of Microbiology and the National Institute of Mathematical and Biological Synthesis (NIMBioS), University of Tennessee

2025-present **Adjunct Associate Professor**
Department of Ecology and Evolutionary Biology, University of Tennessee

2018-2025 **Assistant Professor**
Department of Microbiology and the National Institute of Mathematical and Biological Synthesis (NIMBioS), University of Tennessee

2020-2025 **Adjunct Assistant Professor**
Department of Ecology and Evolutionary Biology, University of Tennessee

2016-2018 **Research Scientist**
Department of Earth, Atmospheric, and Planetary Sciences, Massachusetts Institute of Technology

2013-2016 **Postdoctoral Associate**
Department of Earth, Atmospheric, and Planetary Sciences, Massachusetts Institute of Technology

2010-2013 **Graduate Research Assistant**
Plymouth Marine Laboratory

Research Interests

Global marine ecosystem structure and function, marine biogeochemistry, predator-prey interactions, microbial physiology and metabolism.

Peer-Reviewed Publications

Underlined names indicate trainees in my research group

1. Hambrick, K.M., Smith, L.E., Martin, R.M., Wei, B., Dey, R., Boyer, G.L., Weitz, J.S., **Talmy, D.**, Wilhelm, S.W., Zinser, E.R. (2026). Acclimation temperature influences phage susceptibility in a toxin-producing strain of *Microcystis aeruginosa*. *Microbiology Spectrum*, 14(7), e03379-25.

Non-Peer-Reviewed Publications

1. Microbes in Models: Integrating microbes into Earth System Models for understanding climate change: Report on an American Academy of Microbiology virtual colloquium held on Dec. 6 and 8, 2022. Washington (DC): American Society for Microbiology, 2023.

Grants and Awards

1/1/2027-12/31/2029	NSF co-Principal Investigator award (Total award: $1,454,878; $245,469 to co-PI David Talmy) "*How temporal niche partitioning and growth on urea selects for cyanobacteria in fresh waters*". ID number: DEB-2534721
5/1/2025-4/30/2028	NSF Principal Investigator award (Total award: $1,607,111; $454,006 to PI David Talmy) "*Collaborative Research: Constraining virus loss and carbon and nitrogen flow through virovory in temperate marine ecosystems with isotope tracing and microbial food web models*". ID number: OCE-2445508
10/1/2024-9/30/2027	Simons Foundation Principal Investigator award (Total award: $226,805; full amount to PI David Talmy) "*SCOPE Synthesis: vDarwin Initiative*". ID number: SFI-LS-Project-00010539
4/15/2024-3/31/2029	NSF and NIEHS co-Principal Investigator award (Total award: $7,382,485 to University of Michigan; $573,606 subaward to UTK; $160,001 to co-PI David Talmy) "*Great Lakes center for fresh waters and human health*". ID number: 2418066
8/1/2020-7/31/2025	NSF Principal Investigator award (Total award: $913,189; $397,804 to PI David Talmy, $515,385 to co-PI Erik Zinser) "*Characterizing the effects of exogenous reactive oxygen species on marine microbial ecosystem dynamics*". ID number: OCE-2023680
4/1/2020-3/31/2023	Simons Early Career Investigator in Marine Microbial Ecology and Evolution Award (Total award: $666,000; full amount to PI David Talmy). ID number: 690671 (NCE until 3/31/2024)

10/1/2018-9/30/2020	Burroughs Wellcome Fund co-Principal Investigator award (Total award: $150,000 to PI Louis Gross; $18,750 to co-PI David Talmy) "*Enhancing Quantitative and Data Science Education for Graduate Students in Biomedical Science at the University of Tennessee, Knoxville*". ID number: 1018963
6/1/2018-9/30/2019	NSF Principal Investigator award (Total award: $55,642 to PI David Talmy; transfer of unspent funds from OCE-1536521 from MIT to UTK) "*Elucidating algal host-virus dynamics in different nutrient regimes - mechanistic interactions and biogeochemical impact*". ID number: OCE-1849926
9/1/2015-10/31/2019	NSF co-Principal Investigator award (Total award: $326,864 to PI Mick Follows; co-PI David Talmy was a postdoc on the award) "*Elucidating algal host-virus dynamics in different nutrient regimes - mechanistic interactions and biogeochemical impact*". ID number: OCE-1536521
2009-2013	National Centre for Earth Observation PhD studentship
2009	NERC subsidy to attend Earth System Science Spring School
2008-2009	NERC Masters studentship

Invited Talks

Talmy, D. Modeling microbial predator-prey interactions: From laboratory to the global ocean. Focus Session of the Center for the Mathematics of Biosystems, Virginia Tech, Virginia, USA, December 12th, 2025. Host: *Prof. Frank Aylward*.

Talmy, D. Modeling microbial predator-prey interactions: From laboratory to the global ocean. Ocean Ecology and Evolutionary Biology Seminar Series, University of Tennessee, Knoxville, USA, February 14th, 2025. Host: *Prof. Mike Gilchrist*.

Talmy, D. Empirical modeling of carbon flow through marine viruses and microzooplankton grazers. Ocean Carbon and Biogeochemistry workshop, Woods Hole Oceanographic Institution, Massachusetts, USA, June 11th, 2024. Hosts: *Prof. Sheri Floge, Prof. Jeff Bowman, and Prof. Jessica Labonte*.

Talmy, D. Modeling microbial host-virus interactions: from laboratory to global ocean. University of Bergen, Norway, June 15th, 2022. Host: *Dr. Selina Våge*.

Talmy, D. A model of algal-virus population dynamics reveals underlying controls on material transfer. Green Ocean workshop, École Normale Supérieure, Paris, France, May 18th, 2022. Host: *Prof. Corinne Le Quéré*.

Talmy, D. Nutrient enrichment and predation defense drive cyanobacteria population dynamics. University of Waterloo, Canada, March 11th, 2022. Host: *Prof. Jozef Nissimov*.

Talmy, D. Trade-offs between resource acquisition and defense shape cyanobacteria communities. University of Southern California, USA, October 13th, 2020. Host: *Prof. Naomi Levine*.

Talmy, D. Trade-offs modify ecosystem biomass structure along trophic gradients. SIMPLEX project kick-off meeting. University of Bergen, Norway, August 22nd, 2019. Host: *Prof. Selina Våge*.

Talmy, D. Inferring phytoplankton host-virus traits and trade-offs from laboratory population dynamics. Weizmann Institute of Science, Rehovot, Israel, August 14th, 2019. Host: *Prof. Assaf Vardi*.

Talmy, D. Understanding microbial ecosystem structure and function on large scales using mathematical models. American Society for Microbiology Annual Meeting, San Francisco, California, USA, June 21st, 2019. Host: *Prof. Alison Buchan*.

Talmy, D. Trait-based modeling of viruses in global ocean microbial ecosystems. Gordon Research Conference: Elucidating microbial processes across spatial and temporal scales. Lucca, Italy, July 5th, 2018. Host: *Prof. Kay Bidle*.

Talmy, D. What controls virus dynamics in global ocean microbial ecosystems? University of Texas, Austin, USA, March 23rd, 2018. Host: *Prof. Patrick Heimbach*.

Talmy, D. What controls microbial predator-prey ratios in the global ocean? Lamont-Doherty Earth Observatory, Columbia University, New York, USA, October 2nd, 2017. Host: *Prof. Andrew Juhl*.

Talmy, D., Martiny, A.C., Hickman, A.E., Follows, M.J. Microzooplankton regulation of particulate organic matter elemental composition. Bigelow Laboratory for Ocean Sciences, Maine, USA, March 9th, 2016. Host: *Dr. Nicolas Record*.

Talmy, D., Martiny, A.C., Hickman, A.E., Hill, C.N., Follows, M.J. Microzooplankton regulation of surface ocean POC:PON ratios. Rutgers University, New Jersey, USA, December 15th, 2015. Host: *Prof. Jozef Nissimov*.

Talmy, D., Martiny, A.C., Hickman, A.E., Follows, M.J. Zooplankton regulation of particulate organic matter elemental composition. National Oceanography Center, Southampton, UK, November 10th, 2015. Host: *Dr. Anna Hickman*.

Selected Oral Presentations

Underlined names indicate trainees in my research group

Hambrick, K.M., **Talmy, D.**, Wilhelm, S.W., Zinser, E.R. Temperature histories of host and phage influences infection of *Microcystis aeruginosa*. ASM KY/TN Branch Meeting, Knoxville, TN, April 11th, 2026.

Carr, E., Rajakaruna, H., Våge, S., Omta, A.W., **Talmy, D.** Killing the predator: impacts of top-predator mortality on global ocean ecosystem structure. Aquatic Sciences Meeting, Palma de Mallorca, Spain, June 9th, 2023.

Workshops, Summer Schools, and Colloquia

2025	BioGeoScapes / C-CoMP Modeling Workshop, Woods Hole Oceanographic Institution, Massachusetts, USA.

2024	Ocean Carbon and Biogeochemistry Workshop, Woods Hole Oceanographic Institution, Massachusetts, USA.
2022	Microbes in Models: Steps for Integrating Microbial Activity into Climate Models, Virtual.
2022	Green Ocean Workshop, École Normale Supérieure, Paris, France.
2022	5th Trait-Based Approaches to Ocean Life Workshop, Knoxville, Tennessee, USA. Lead Organizer.
2020	NIMBioS Investigative Workshop on Quantitative Education in Life Sciences Graduate Programs, Virtual.
2019	4th Trait-Based Approaches to Ocean Life Workshop, Buckinghamshire, UK.
2018	9th Aquatic Virus Workshop, Lincoln, Nebraska, USA.
2016	8th Aquatic Virus Workshop, Plymouth, UK.
2015	2nd Trait-Based Approaches to Ocean Life Workshop, Waterville Valley, New Hampshire, USA.
2015	Workshop for Development of Macromolecular Models of Marine Algae, Sackville, New Brunswick, Canada.
2014	The Gordon and Betty Moore Foundation Research Associate and Postdoctoral Scholar Summit, Dorado, Puerto Rico.
2014	North Atlantic Virus Infection of Coccolithophores Expedition (Na-VICE) post cruise meeting, Woods Hole Oceanographic Institution, Falmouth, Massachusetts, USA.
2013	Trait and Resource Allocation Based Modeling of Microbial Communities, University of Exeter, UK.
2013	Workshop for Understanding Microbial Macromolecular Composition, Haifa, Israel.
2010	Advanced School on Complexity, Adaptation and Emergence in Marine Ecosystems, Trieste, Italy.
2010	Earth System Science Spring School, Scarborough, UK.
2010	Modeling Evolutionary and Ecological Processes in Biogeochemical Cycles, University of East Anglia, UK.

Teaching Experience

2026	Instructor, Reproducible Data Analysis (9 undergraduate and 5 graduate students), University of Tennessee, Knoxville.
2024-2025	Lecturer, General Microbiology (130 undergraduate students), University of Tennessee, Knoxville.
2023-2025	Instructor, Microbial Ecology Journal Club (20 graduate students), University of Tennessee, Knoxville.
2023	Instructor, Foundations in Microbiology (10 graduate students), University of Tennessee, Knoxville.
2022	Invited lecturer, Quantitative Methods in Virus Ecology and Evolution (10 graduate students), University of Bergen, Norway.
2020-2022	Lecturer, General Microbiology (100 undergraduate students), University of Tennessee, Knoxville.
2020-2021	Instructor, Advanced Topics in Microbiology (10 graduate students), University of Tennessee, Knoxville.
2018-2019	Instructor, Graduate Computational Biology Journal Club, University of Tennessee, Knoxville.
2016	Invited lecturer, Hjort Summer school in Bergen, Norway: Complexity vs. Simplicity in Microbial Ecology.
2008	Associate tutor, University of Sussex, UK. Courses taught: Linear algebra II and Introduction to Matlab.
2007	High school classroom assistant, Student Associate Scheme, Worthing High School, Worthing, East Sussex, UK.

Mentorship

Undergraduates

2024-2025	Francesca Ravelli, Math 498, Math Honors Thesis.
2023	Emily Landolt, NSF Research Experiences for Undergraduates, 10-week summer research placement.
2021	Kamryn Henderson, National Summer Undergraduate Research Project (NSURP), 8-week summer research project.
2020	Umang Joshi, Stephanie Westaway, Michael Lin, NIMBioS Research Experiences for Undergraduates, 6-week summer group research project.

2019	Lucas Fiet, Margie Knight, Priscilla Cho, NIMBioS Research Experiences for Undergraduates, 10-week summer group research project.
2019	Aaron Lin, NSF Research Experiences for Undergraduates, 10-week summer research placement.
2018-2019	Maitraya Ghatak, 401R, Undergraduate Research in Microbiology.
2018	Brielle Shortreed, NSF Research Experiences for Undergraduates, 10-week summer research placement.

Graduate Students

2025-present	Advisor and master's Committee Chair, Jackson Page-Roth, Microbiology Graduate Student, University of Tennessee. Master's thesis: *Jekyll and Hyde: Modeling bacterial pathogenicity modulation during algal blooms*.
2019-2021	Advisor for doctoral thesis chapter, Max Showalter, Astrobiology Program, University of Washington. Doctoral thesis chapter: *Modeling virus-host dynamics in sea ice brines*.
2018-present	Doctoral Committee member for 8 graduate students in the Department of Microbiology and the Department of Ecology and Evolutionary Biology, University of Tennessee.
2018-2024	Advisor and Doctoral Committee Chair, Katie McCullough, Microbiology Graduate Student, University of Tennessee. Doctoral thesis: *Modeling the impact of reactive oxygen species on ocean microbial community dynamics*.
2018-2022	Advisor and master's Committee Chair, Kyla Linn, Genome Science and Technology Graduate Student, University of Tennessee. Master's thesis: *Ecological controls on successional patterns in bloom forming cyanobacteria*.

Postdoctoral Researchers

2020-2022	Dr. Harshana Rajakaruna
2020-2021	Dr. Spiro Papoulis
2018-2020	Dr. Audra Hinson

Technical Professionals

2020-present	Eric Carr

Professional Service and Outreach

Service to the Discipline

Ongoing	Reviewer, *Science*, *Nature Communications*, *Nature Microbiology*, *mBio*, *Nature Ecology and Evolution*, *Science Advances*, *The ISME Journal*, *The American Naturalist*, *Limnology and Oceanography*, *Global Biogeochemical Cycles*, *Biological Invasions*, *Biophysical Journal*, *New Biotechnology*, *Journal of Theoretical Biology*, *Marine Ecology Progress Series*, *PLOS ONE*, *Frontiers in Marine Science*, *Journal of Marine Systems*
Ongoing	NSF Biological Oceanography, mail-in reviewer
2025-2027	Steering Committee member and organizer, Ocean Carbon and Biogeochemistry (OCB) workshop: "From single cells to ecosystems: quantifying the role of marine viruses in carbon transport models"
2025-present	Co-leader, Community of Scholars on Microbial Interactions and Communities
2023-2025	Steering Committee member, 7th Workshop on Trait-Based Approaches to Ocean Life
2022-2023	Steering Committee member, 6th Workshop on Trait-Based Approaches to Ocean Life
2022	Lead organizer, 5th Workshop on Trait-Based Approaches to Ocean Life, Knoxville, Tennessee
2021	NSF Panelist, Biological Oceanography Postdoctoral Fellowship program
2017	NASA panelist, EXPORTS program

Service to the Department and University

2026-present	University of Tennessee, Department of Microbiology, Faculty Mentoring Committee for Zach Burcham, committee member
2025-present	University of Tennessee, Department of Microbiology, Tenure Mentoring Committee for Jenny Heppert, committee member
2025-present	University of Tennessee, Department of Microbiology, Peer Teaching Committee for Sara Classen, committee member
2024-present	University of Tennessee, Department of Microbiology, SACSCOC assessment reporting for the Graduate Program, author

2024-2025	University of Tennessee, Department of Microbiology, Faculty Search Committee chair, Quantitative Microbe-Plant-Environment Interactions Assistant Professor search
2024-2025	University of Tennessee, Department of Microbiology, Faculty Search Committee member, Microbe-Animal Assistant Professor search
2023-2024	University of Tennessee, Division of Biology, Task force on beginning math courses for biology majors, member
2023-2024	University of Tennessee, Department of Microbiology, Faculty Search Committee member, Plant-Microbe Associate/Full Professor search
2020-2024	University of Tennessee, Department of Microbiology, Diversity, Equity, and Inclusivity Committee member
2020-2024	University of Tennessee, Department of Microbiology, member of the Committee for Curriculum and Undergraduate Affairs
2018-2020	University of Tennessee, Department of Microbiology, Graduate Admissions Committee member

Outreach and Community Engagement

2021-2022	Choice Health Network (LGBTQ+ community outreach and public health non-profit) Community Impact Committee Member
2018-2019	Annual Volunteer, Girl Scouts of Greater New York STEM programming events
